Neighborhood Security Cameras

Although neighborhood security does not fall within the jurisdiction of LHA, there is support for neighborhood security efforts, such as Safer Crocker www.safercrockerhighlands.org.

Another group of neighbors, led by Board member Miguel Drumond, decided to add a security camera system to their street, Alma Place. Nearly half of the homes on the street contributed to the camera system, making the per person cost very reasonable. Since its installation, the camera has captured numerous incidents with clearly identifiable information. Recent conversations with the Oakland Police Department have confirmed that the cameras are extremely effective, especially for solving more serious crimes.

If you're interested in learning more and potentially spearheading a similar effort on your street, please reach out to office@lakeshorehomes.net for more information.

PG&E Substation Mural Project – Committee Forming

Many years ago, LHA received a grant from PG&E to add a mural to the substation wall along Grosvenor Place. With renewed interest in this project, a committee is forming and we are looking for neighbors to join and explore the possibilities for this wall. Interested in joining the committee? Email us at office@lakeshorehomes.net

Be Kind to our Lampposts

Our beautiful, historic lampposts are only painted once every ten years. When tape is used to post a sign – painter's tape included – it removes paint and exposes the lamppost to the elements. To keep them rust free, both the LHA and the City of Oakland prohibit posting signs and notices on lamp posts and utility poles. Please do not post signs on our lampposts.

Sign-up for LHA Electronic Documents

Help us reduce waste – sign up to receive your HOA documents via email. Complete the form on the reverse side, sign and return it to our office. It's that easy!
